Aeternum

Produkt	**Aeternum**
Hersteller / CH Anbieter	**Brandoni Solare S.p.A.**
Adresse	**via Pigini, 8** **I-60022 Castelfidardo (AN)**
Kontakt	**Tel: +39 0717206860** **Fax:** **Mail: info@brandonisolare.com** **Web: www.brandonisolare.com**

Produkt Details

Aeternum is a special PV module that, thanks to a special fastening system, allows to construct integrated plants on sloped roofs. The special frame made in aluminium and pre-mounted onto the bottom border of the module, is properly studied to warranty a continuous surface. The features of the module and the mounting profiles allow, apart from the complete water-tightness of the solar surface, a simple and easy mounting onto the frames supporting the tiles.

Technologie:	**Multikristalline**
Leistung [W]:	**130-155**
Abmessungen [mm] L, b, d:	**1064x1094x29**
Spezifische Leistung [W/m^2]:	**112–133**
Preis [CHF/m^2]:	**-**
Modul Gewicht [Kg]:	**13,6**
Spezifisches Gewicht [Kg/m^2]:	**12 (außer Unterkonstruktionen)**
Min. Neigung:	**-**
Maßarbeit:	**Farbzellen (blau, grau, rot, grün, dunkelbraun, usw.)**
Zertifizierungen:	**IEC61215, EN61730-1,2, IEC61140, CE, IEC61701, Brandversuch**
