Semi-transparent element for facade

**ViaSolis BIPV module**

ViaSolis technologically advanced BIPV glass/glass modules can be fully customised for non-standard PV installations and Building Integrated projects. They can be manufactured according to the needs of individual clients by exploiting the possibilities of the color spectrum, size, desirable shape, different light transmission or insulating characteristics.

**Product specifics**

ViaSolis BIPV module

**Technology:**

Monocrystalline

**Power [W]:**

Ca. 5-840 Wp

**Size [mm] L, w, t:**

Max 3,500 x 1,700

**Specific power [W/m²]:**

Ca. 100-140, depending on transparency

**Price [CHF/m²]:**

On request

**Module weight [Kg]:**

According to static requirements

**Specific weight [Kg/m²]:**

According to static requirements

**Min. tilt:**

- Bending radius, module and cell color, transparency, shape and dimensions, silk screen printing

**Custom made:**

On request

Swiss BIPV Competence Centre, Campus Trevano, CH-6952 Canobbio, info@bipv.ch, www.bipv.ch
