Product specifics

The SF is a semi flexible and lightweight module designed for building integration. The module has a 1mm alu back sheet and can be installed with conventional facade substructures. It is the only solution for curved PV facades worldwide and available in sizes up to 3m.

High energy yield. Easy installation, drill and fix. Custom made solutions are available on request. Unbreakable & robust - no glass, no micro cracks. EL tested

Technology:	CIGS
Power [W]:	33-40
Size [mm] L, w, t:	1061 x 448 x 2.4
Specific power [W/m²]:	Approx. 100
Price [CHF/m²]:	Approx. 220
Module weight [Kg]:	1.9
Specific weight [Kg/m²]:	4
Min. tilt:	-
Custom made:	stainless steel / aluminium / steel back sheet
Certifications:	IEC 61646; IEC 61730
