Product specifics

IBBI PLATE is an innovative roofing solution composed of two Uni-Solar PVL136 photovoltaic modules and a galvanized steel sheet (DX51 Z225) with a PDF coating. It has been developed for installation on multiple forms of roofing sheets: corrugate and Greca, sandwich panels, etc. There are three different models depending on the roof characteristics: Standard A, B and C. The main production model is Standard C (5586x1040mm).

Technology:	Thin film
Power [W]:	136, 272 or 288
Size [mm] L, w, t:	2949 or 5586 x 1040 x 6
Specific power [W/m²]:	45, 47 or 50
Price [CHF/m²]:	n.a.
Module weight [Kg]:	22 or 43
Specific weight [Kg/m²]:	7.3 or 7.4
Min. tilt:	n.a.
Custom made:	-
Certifications:	CE Europe
