**Product specifics**

Sapa Solar insulating PV glasses are as easy to incorporate as standard glasses and lend themselves very well to integration into façades, curtain walls, roofs and other horizontal or vertical glass surfaces. Cell type, color and geometric arrangement allow architects to find the best compromise between electricity production, light strategy and shading effect. Esthetics are completely preserved by an invisible electrical wiring.

- **Technology:**
  - Monocrystalline, multicrystalline, thin film

- **Power [W]:**
  - Custom made

- **Size [mm] L, w, t:**
  - 5100 (max) x 2400 (max)

- **Specific power [W/m²]:**
  - Custom made

- **Price [CHF/m²]:**
  - n.d.

- **Module weight [Kg]:**
  - Custom made

- **Specific weight [Kg/m²]:**
  - Custom made

- **Min. tilt:**
  - n.d.

- **Custom made:**
  - Triple glazing, dimensions

- **Certifications:**
  - n.d.
