Product specifics

The S-TE Integra with the Tenesol modules is a building integrated solution for tiled and slated roofs. It is suitable for partial or total coverage of residential, educational or health care buildings' roofs. Its flexibility allows for an extra-flat final look and an integration in portait or landscape mode for new or existing buildings with low slope roofs of minimum 15°. The air gap underneath the modules, ensures natural ventilation. The realization of pyramidal configurations is also possible.

Technology:	Monocrystalline, multicrystalline
Power [W]:	140-150 (monocrystalline), 130-140 (multicrystalline)
Size [mm] L, w, t:	1510 x 700 x 5.5
Specific power [W/m²]:	123.8-133.3
Price [CHF/m²]:	n.d.
Module weight [Kg]:	12
Specific weight [Kg/m²]:	11.4 (15: structure + module)
Min. tilt:	15°
Custom made:	Power, color (black)
Certifications:	IEC 61215, IEC 61730
