Transparent element for glass

Suntech See Thru

Product	Suntech See Thru
Producer / CH supplier	Suntech MSK
Address	Schwertstrasse 1 CH-8200 Schaffhausen
Contact	Tel: +41 52 632 00 90 Fax: +41 52 632 00 99 Mail : sales.europe@suntech-power.com Web: www.suntech-power.com

Product specifics

Suntech See Thru (previously known as Photovol Glass) is a solar module based on amorphous silicon photovoltaic technology with a semitransparent finish, similar to tinted glass. See Thru is ideal for curtain walls, skylights, canopies, atriums, and other vertical or sloped glazed surfaces. While generating electricity, Suntech See Thru also works like other high performance glazing solutions, drastically reducing solar heat gain levels and UV radiation passing through the glass.

Technology:	Thin film (a-Si)
Power [W]:	42-52
Size [mm] L, w, t:	980 x 950 x 10.5-13.5
Specific power [W/m²]:	45.1-55.9
Price [CHF/m²]:	n.d.
Module weight [Kg]:	23-30
Specific weight [Kg/m²]:	24.7-32.2
Min. tilt:	n.d.
Custom made:	Dimensions
Certifications:	IEC61215, IEC61730
