Contact	Tel: +39 0717206860 Fax: Mail: info@brandonisolare.com Web: www.brandonisolare.com

Product specifics

Aeternum is a special PV module that, thanks to a special fastening system, allows to construct integrated plants on sloped roofs. The special frame made in aluminium and pre-mounted onto the bottom border of the module, is properly studied to warranty a continuous surface. The features of the module and the mounting profiles allow, apart from the complete water-tightness of the solar surface, a simple and easy mounting onto the frames supporting the tiles.

Technology:	Multi-crystalline
Power [W]:	130-155
Size [mm] L, w, t:	1064x1094x29
Specific power [W/m²]:	112–133
Price [CHF/m²]:	-
Module weight [Kg]:	13,6
Specific weight [Kg/m²]:	12 (excepted sub-structures)
Min. tilt:	-
Custom made:	Cell colour (blue, grey, red, green, dark brown, etc.)
Certifications:	IEC61215, EN61730-1,2, IEC61140, CE, IEC61701, Fire Test
